**BUILDING-TECHNOLOGY CENTER UNDER CONSTRUCTION**

TO BE COMPLETED TH 1951 -- Rzeczpospolita, No 261, 22 Sep 49

A large new center for the Institute of Building Technology is now being built in Warsaw. One of the structures intended for research work and equipped with machines imported from abroad totals 17,500 cubic meters and will be ready for operation at the end of October. New methods and materials for building are being tested now. The entire center will total 100,000 cubic meters. The laboratory will be a structure of 55,000 cubic meters and will contain projection rooms for scientific films, a museum, a library, bookshops, and two research laboratories. The entire project will be ready for operation in 1951.

Next to the new research center, at Nowowiejska Street, a new building for the Central Bureau of Statistics is being erected, totaling 100,000 cubic meters. About 500 people are employed on the construction. They are provided with the latest technical equipment.

BUILDING TO BE ERECTED IN 10 DAYS -- Trybuna Ludu, No 261, 22 Sep 49

The work crews of the State Building Contractors propose to erect a residential structure of 13,000 cubic meters at the Warsaw suburb of Mokotow in 10 days.

NEW MACHINES FOR RUBBLE REMOVAL -- Rzeczpospolita, No 262, 23 Sep 49

The Ludwik Warynski Industrial Enterprises at Strzegom have assembled five conveyor belts for the removal of rubble from the Warsaw area. The machines have a range of 15 meters and capacity of over 40 tons per hour.
